

JAYASRI T

AI/ML Engineer · Gen AI Developer · NLP & Computer Vision

+91 93425 31156 | jayasri21072006@gmail.com | Chengalpet, Tamil Nadu | LeetCode: 200+ solved | [LinkedIn](#) | [Portfolio](#)

SUMMARY

Pre-final year B.Tech (AI & DS) student with strong Python, ML, NLP, and Computer Vision skills. Builds deployable apps — ML pipelines, YOLOv8 proctoring, NLP analytics tools. Familiar with RAG architectures and LLM integration. Google Data Analytics certified, 6-Star HackerRank Python, CGPA 9.35. Solved 200+ problems on LeetCode.

TECHNICAL SKILLS

Languages: Python · SQL · Java · JavaScript · HTML · CSS

ML & CV: Scikit-learn · Classification · Regression · Clustering · YOLOv8 · OpenCV · CNNs · GANs · RNNs · Pandas · NumPy · Matplotlib · Seaborn · Joblib

NLP & LLM: NLP Pipelines · WordCloud · Hugging Face · Groq API · Tavily · LangChain · RAG (Naive/Modular/Agentic/Graph/Corrective) · Model Quantization

Databases: MongoDB · MySQL · Vector DB (FAISS/Chroma)

Frameworks/Tools: Flask · Streamlit · MCP Connectors · Postman · Lovable AI · Claude Code · GitHub Copilot

EDUCATION

B.Tech – Artificial Intelligence & Data Science | Anand Institute of Higher Technology, Chennai | Aug 2023 – Present | **CGPA: 9.35/10** (5th Sem)

INTERNSHIP EXPERIENCE

ML Intern · Saiket Systems | Jun–Jul 2025

- ▶ Built supervised ML models, performed feature engineering, and benchmarked performance on real-world datasets.

Python Intern · Cognifyz Technologies | Feb–Mar 2025

- ▶ Developed Python automation scripts and EDA workflows; produced structured insights from raw datasets.

Node.js Intern · Askan Technologies | Dec 2025

- ▶ Designed RESTful backend APIs; integrated MongoDB and conducted endpoint testing using Postman.

PROJECTS

Sentiment Analysis & Word Cloud Visualiser ★ SIH 2025 – College Level Selected

- ▶ NLP web app classifying stakeholder comments (Pos/Neu/Neg) with confidence scores, auto-summaries, and dynamic word-cloud visualisations.

Stack: Python · Streamlit · NLP · WordCloud · Pandas · Matplotlib

GitHub: [sentiment_analysis_with_wordcloud](#) | Demo: [Live App](#)

ML-Based Cryptocurrency Liquidity Predictor

- ▶ End-to-end pipeline (EDA → RandomForest → Joblib) predicting crypto liquidity with HLD/LLD docs and live Streamlit UI.

Stack: Python · Scikit-learn · Pandas · NumPy · Seaborn · Streamlit **GitHub:** [crypto-liquidity-predictor](#) |

Demo: [Live App](#)

AI Examination Monitoring System

- ▶ Real-time YOLOv8 proctoring system detecting suspicious webcam behaviour with snapshot capture and incident reporting.

Stack: Python · YOLOv8 · OpenCV · Computer Vision **GitHub:** [examination-monitoring-system](#)

CERTIFICATIONS & COURSES

- ▶ Google Data Analytics Professional Certificate – Coursera | Supervised Learning – Coursera (Stanford)
- ▶ Data Science with Generative AI – PW Skills | Generative AI – Coursera (IBM) & LinkedIn Learning
- ▶ Advanced SQL & Python – CodeChef AI for India / GUVI | SQL – HackerRank | MongoDB – MongoDB University
